Medicare/Medicaid Requirements for Release and/or Use of Your Health Care Information.

- 1) Authority - Under the Privacy Act of 1974, skilled nursing facilities are required to conduct comprehensive, accurate, standardized, and reproducible assessments of each resident's functional capacity and health status. As of June 22, 1998, all skilled nursing and nursing facilities are required to establish a database of resident assessment information and to electronically transmit this information to the State. The State is then required to transmit the data to the federal Central Office Minimum Data Set (MDS) repository of the Centers for Medicare and Medicaid Services (CMS).
- 2) Principle Uses – The information will be used to track changes in health and functional status over time for purposes of evaluating and improving the quality of care provided by nursing homes.
- 3) Routine Uses – The primary use of this information is to aid in the administration of the survey and certification of Medicare/Medicaid long-term care facilities and to improve the effectiveness and quality of care given in those facilities. This system will also support regulatory, reimbursement, policy, and research functions. This system will collect the minimum amount of personal data needed to accomplish its stated purpose.

The information collected will be entered into the Long Term Care Minimum Data Set system of records, System NO 09-70-1516. Information from this system may be disclosed, under specific circumstances to: (a) a congressional

- office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual; (b) the Federal Bureau of Census; (c) the Federal Department of Justice; (d) an individual or organization for a research, evaluation, or epidemiological project related to the prevention of disease or disability, or the restoration of health; (e) contractors working for CMS to carry out Medicare/Medicaid functions, collecting or analyzing data, or to detect fraud or abuse; (f) an agency of a State government for purposes of determining, evaluating and/or aggregate costs, Federal agency to fulfill a requirement of a Federal statute that implements a health benefits program funded in whole or in part with Federal funds or to detect fraud or abuse; (g) Peer Review Organizations to perform Title XI or Title XVIII functions; (h) another entity that makes payment for, or oversees administration of health care services for preventing fraud or abuse under specific conditions.
- 4) Disclosure is Mandatory – For nursing home residents residing in a certified Medicare/Medicaid nursing facility, the requested information is mandatory because of the need to assess the effectiveness and quality of care given in certified facilities and to assess the appropriateness of provided services. If a nursing home does not submit the required data, it cannot be reimbursed for any Medicare/Medicaid services.

How We Will Use or Disclose Your Health Information

- 1) Treatment - We will use your health information for treatments. For example, information obtained by a nurse, physician, or other member of your healthcare team will be recorded in your record and used to determine the course of treatment that should work best for you and to help provide you with continuity of care. We will also provide your physician or other subsequent health care providers with copies of various written reports, verbal reports, and additional information that should assist in treating you while under their care. This also means that we will be providing information to outside providers, i.e., pharmacy, therapy services, hospitals, consulting physicians, etc., to assure that your care is provided in a continuous and efficient manner.
- 2) Payment – We will use your health information for payment. For example, a bill may be sent to you or a third-party payer, including Medicare or Medicaid. These bills may include information that identifies you, as well as your diagnosis, procedures, and supplies used.

Your name is also on the drawer that contains your medications on the medication cart. Your picture is also used with our medication records.
